Ships have been located in our lives since antiquity. But ships have been entered into the ancient societies that it is exactly known. As a result of research conducted Egypt has started to the first development of marine. On the other hand we have been seen at culture of Minos in the same time. That's why, we can't say to the ultimate result of geophraphy of the ship where it was born. Nevertheless, hitherto to the researches and studies show to the interaction of publics by the ships and development of civilization to have a substantial roll.

Boats and ships have been often located to piracy, fishing, trade and wars such as different situations in this time. Therefore, they had been reflected to the art of decoration from explain to itself of human race. We are learning and have knowlage to priates and pirate ships, war ships, trade ships and mess with trade to the cultures by the agency of the ships on the pottery.
