TITLE : A Research About The Collective Index of Literary Terms Dictionaries in The Republic Era.

ABSTRACT

The terms which are used in literature researches and the setting of the basic concepts and of naming these concepts are designated as the thesis subject.

Studying the basic term dictionaries which assist in especially The New Turkish Literature in The Republic Era ,the terms used in The New Turkish Literature and trying to set definition of these terms are designated as the goal of our thesis.

Six term dictionaries among the basic dictionaries which assist in The New Turkish Literature and in order to fill in the gaps which are created compulsively by the terms dictionaries,two general language dictionaries are taken as a matter.Also,in order to set the terms which are used in our literature before The Republic Era ,Kamus-ı Fransevi of Şemsettin Sami is examined.In addition to dictionaries ,The Works of Nihat Sami Banarlı are used in order to set the literature terms which may be seen in literature histories and lesson books.Literary arts in these terms are not given a place in this work.The abbreviations of the examined works are stated at the beginning.Thus, A Wholeness is provided in the examined works.The materials which are used in this thesis are gathered into two groups: A)Literature dictionaries as a goal of education.B)The works which includes the concept quality terms, collected from the literary sources.

In this work ,it is made good use of dictionary knowledge methods.Also, the science of terminology is taken into consideration in concepts studies..
